

Dear Parents and Prospective Parents,

St. Joseph Catholic School is alive and well! Our enrollment is up and projected to go up for the 2011 – 2012 school year. While many improvements have already taken place, many more are in the planning stages. The School Board and I are looking ahead to make sure St. Joseph School is vibrant for years to come.

All Catholic Schools are an added value for our nation. Because of their traditionally high academic standards and high graduation rates, all supported by strong moral values, Catholic Schools and their graduates make a significant contribution to American society. Catholic Schools provide a high level of service to local communities because of the many service projects students undertake. Giving back to the community and helping others are values instilled in every Catholic school student.

Catholic Schools also offer A+ service to our country by serving students from all economic backgrounds and giving them a strong and moral foundation. This solid foundation enables students to succeed in life, serve in government, industry, business, nonprofit and educational fields.

Here at St. Joseph Catholic School, it is our mission to help children develop the gifts that they have been given in order to grow up into individuals who know they are loved and free to make a positive difference in the world. We believe in the future of our children. Our Pre-School Program is one of the best in the area. Our loving and caring faculty and staff are dedicated to teach and live the gospel message. If you are not a part of the St. Joseph family, please consider our school for your child's education. It is an investment that pays back in huge dividends!

Open enrollment starts soon, but don't wait. Call the school for a personal tour. I will be more than happy to show you our wonderful school and explain what it has to offer.

God Bless,
Mr. Tom Kozak, Principal
